## Summary

Full stack developer with knowledge of Java, .net, JavaScript, jQuery, Angular JS, Node JS, HTML5, CSS3. Multi-tasker who thrives in fast paced environment through continuous learning and teamwork.

## Education

**Master of Science – Computer Science**, California State University, USA Dec-2020  
**Bachelor of Engineering – Computer Engineering**, Gujarat Technological University, INDIA May-2017

## Technical Skills

Programming Languages:	Java, .NET (C#, WPF, ASP.net), Ruby, Python, HTML5, CSS3
Web Technologies:	JSP, Servlet, Bootstrap, AngularJS
JS Frameworks/Libraries:	JavaScript, jQuery, Node, Express, AJAX
Database:	MySQL, MongoDB, JDBC, NoSQL, JDBC
IDE:	Visual Studio, Brackets, WebStorm, IntelliJ IDEA, Rubi, NetBeans, Eclipse
Tools and technologies:	Amazon Web Service, Android, Git, TDD (Test Driven Development)
Other:	Data structure and algorithms, Object oriented programming, RDMS, Problem solving, Agile, Software design, Development and debugging

## Professional Experience

**Software Engineer |** Infinium Global Solution, INDIA March 2018 - Dec 2018

Technologies: **Java, JavaScript, Angular JS, Node JS, HTML5, JavaScript, CSS3**

- Implemented UI designs into well organized and structured HTML5, CSS3 compatible with modern browsers.
- Developed single Page application with a modern JavaScript MVC framework like Angular2 and AngularJS1.5.
- Install, configure and deploy software, provide quality assurance.
- Troubleshoot various software issues using debugging process and coding techniques.
- J2EE development, website maintenance, application support.
- Worked with core Java business components and services including SOAP and RMI.

**Software Engineer |** MSP IT Solution, INDIA June 2017 - March 2018

Technologies: **.Net (WPF, ASP.net), Java, JavaScript, Angular JS, Node JS, TCP/IP, MySQL, HTML5, CSS3**

- Worked in a team from scratching to the development of Billing software (EPOS System) Using WPF (.net).
- Involved in the full life cycle of software design process of other projects, including prototyping, proof of concepts, design, interface implementation, testing and maintenance.
- Communication window service used to data transfer between two servers located on different location using TCP/IP Supported programming changes during quality assurance, user acceptance testing, and post.
- Expertise working on Triggers, Binding, Styles, Data Template, Control Template, Routed Events, Converters, Layout Panels in XAML.

**Software Engineer INTERN |** MSP IT Solution, INDIA Jan 2017 - June 2017

Technologies: **Java, .Net, JavaScript, HTML5, CSS3, MySQL**

- Conducting software analysis, programming, testing, and debugging.
- Learn Basic information in WPF and ASP.net.
- Worked with Java-based Web services and java application.

## Projects:

**Photo Site:** The purpose of this project is to create a photo sharing website called PHOTOSITE using Ruby on Rails and SQLite. This MVC based photo sharing website uses Rails as a framework and SQLite as database to store information of users, photos and comments.

### Movie ticket booking project:

Understanding of the business functionality and business rules to be followed during the execution of project. Create use cases, flows diagram, ER diagram, Business logic and domain logic. Application designed and developed using PHP, HTML, CSS and MY SQL database.

**Camp Tread:** For College campus Student to exchange books, rides Like (Carpool) and many other electronics items. Understanding of the business functionality and business rules to be followed during the execution of project. Create use cases, flows diagram, ER diagram, Business logic and domain logic Application designed and developed using Java and MY SQL database.
